## CITY TAKES CONTROL OF THE HOSPITAL

New City Council Gets Into Action By Making Some New Departments In Administration. Several Other Matters Discussed.

Hospital matters and assessment chiefly occupied the attention of the City Council at the meeting on Wednesday evening.

The decision to appoint members of the Council, only, to the Hospital Board is a step towards the direct control of the Hospital by the city, and constitutes a departure from the usage that has prevailed heretofore.

The fling of a list of questions on assessment matters by Ald. Best, added another chapter to the fairly lively discussion on the assessment that will feature this year's Council.

Monday meeting for further consideration.

In reply to the Commissioner's enquiry regarding the attitude of the government on the collection of hospital accounts, Hon. R. G. Reid, Minister of Health, wrote that it was his intention to introduce several amendments at the forthcoming session of the Legislature. It had never been intended that the municipal districts should be collecting agencies for the hospitals, but some of the districts had run into serious financial difficulties because of the Act. It would be necessary, however, to give the hospitals wider powers of collection if their claim on the M.D.s was restricted. The exact nature of the legislation had not been determined.

The by-law to appoint a Medical Health Officer for 1922 was introduced by Ald. Broughton. The name of Dr. Henry George was inserted as the nominee of Council. Discussion on the salary was fairly prolonged.

Ald. Best suggested \$20.00 per month. Instead of \$35.00, as paid in 1921. Ald. Elime favored \$20.00 per year. Ald. Elime would make it \$25.00 on account of the responsibility involved. It was found that \$20.00 per month had been the usual salary prior to the last couple of years.

The by-law was put through the various stages with the salary set at \$20.00 per month. The Aldermen stated their intention of dealing with the various employees of the city on their merits in the matter of salary, and did not favor a uniform reduction.

Ald. Smith enquired if the city was responsible for the liabilities of the hospital.

The Commissioner replied by stating that the city owns the hospital, and although the city had never assumed the liability, it had assisted in paying the deficits. The Commissioner reviewed several grants that had been made, but none of these had been large, seldom running more than \$1500 in a year. The city is liable for the hospital accounts.

Council agreed to keep the control of the Hospital within the Council itself, as it was argued that the Hospital Commissioners had too much authority not to be directly responsible to the people.

Ald. Broughton moved that Ald. Best, Smith and Gibson constitute the Commission. Ald. Gibson pressed for the appointment of Commissioner Stephenson in his place, but the Commissioner objected to going on the Board where he would have to act in the engaging and dismissal of employees. The city office could undertake to do the bookkeeping in the city office.

It was finally agreed that Ald. Best, Smith and Elime should compose the Hospital Board and the by-law was passed unanimously.

Broughton-Gibson-That the Council vote its hearty thanks to the Hospital Board for their faithful and efficient services during their tenure of office, and that a letter conveying this thanks be sent to each member.

For lack of sufficient information, Council left the appointment of representatives on the Library Board over until the next meeting.

Ald. Elime thought the Building By-laws should be fixed up. Ald. Best reminded the Council that he had been trying to get action on the twelve months, but hadn't succeeded. The Mayor promised that there would be a special meeting of Council at an early date to discuss the building by-laws.

## THE ASSESSMENT

Ald. Best asked a number of questions regarding the assessment. After the Commissioner had answered a couple of these verbally, he asked permission to give his answers in writing at the next meeting of Council. He preferred to answer all questions in writing if given a couple of days' notice. This was granted.

Discussing the appeal against the new assessment by F. W. Galbraith, the Commissioner pointed out that it would be necessary for Mr. Galbraith to produce evidence to the Court of Revision to prove his contention that the assessment on lands is too low. The whole matter would be aired then.

Some of the Aldermen were in favor of calling independent witnesses, but no definite action was taken, as the Court of Revision is still some weeks distant.

The Mayor and the Commissioner warned the Aldermen against too free discussion of city affairs on the street corners. Listen to complaints, they urged, but bring the parties to the city office for answers and adjustment of troubles. In this way, much misunderstanding can be averted.

## THE MAYOR'S TREAT

Following the custom of years, the Mayor entertained the members of Council, retiring Aldermen and representatives of the press to an oyster supper at the Commercial Cafe.

There were no outstanding declarations of policy. Commissioner Stephenson was just as optimistic as usual, declaring that the C.N.R. trains would get here yet and that various other things would happen. There was a general determination on the part of all present to take their part in solving the problems of the city during the current year.

## RESTORATION OF KNIGHTHOOD IN CANADA OPPOSED

Winnipeg, January 4.—The reported intention of Quebec Liberals to fight for the restoration of knighthood and other honors for Canadians, will be opposed by the Progressive members of parliament, according to an opinion expressed by R. A. Hoey, Progressive member-elect for Springfield. A dispatch from Toronto carries the report that the Quebec "blow" will endeavor to obtain a reversal to the granting of titular honors.

"The sentiment in the West is pretty well opposed to such an idea," Mr. Hoey said. "I believe there is a reference to it in the progressive platform. The whole idea is opposed to democratic principles, and it is on that ground, I venture to say, that the plan will meet with the opposition of the western members."

## ROD AND GUN FOR JANUARY

Lovers of the out-of-door life will welcome the January edition of Rod and Gun in Canada, which contains many interesting and instructive articles and stories dealing with nature and her children, in the winter. "Toons Loss Twenty," is the title of a

romantic story by Charles Dorian, the well known short story writer, which appears in this issue along with several other stories by such well known writers as P. V. Williams, Harry M. Moore, E. T. Martin and others equally famous. For the firearms crank there is the usual valuable Arms and Ammunition department and special articles on rifle and revolver shooting. The fisherman takes a trip along a Nova Scotian trout stream, by Bonnycastle Dale, while Robert Page Lincoln's articles open the road to the thrills of ice fishing. The trapper is taken care of by M. U. Bates and Archie Jocelyn, in the "Trap Line Department." The January issue of the national sportsman's magazine of Canada is published monthly by W. J. Taylor, Limited, Woodstock.

## APPRECIATION

The following is a copy of a letter received by the Ladies' Hospital Aid from the Hospital Commissioners:— On behalf of the Hospital Commissioners, I beg leave to extend to the officers and members of the Ladies' Hospital Aid our hearty thanks and deep appreciation for the wonderful support you have given us during the past year.

Thanks to your loyal support and most efficient help, our Hospital has been brought to a very satisfactory state of efficiency, and we have no hesitation in stating that without your Aid this end could not have been accomplished this year.

We trust that your Society will continue to render to our successors in the same loyal and efficient support. Again thanking you all and wishing your officers and members a most Happy and Prosperous New Year.

Yours faithfully,  
C. C. GAMBLE,  
Chairman of Hospital Commissioners.

## S.A. CHRISTMAS TREE

On Thursday, December 29, the Salvation Army held their annual Christmas tree and programme. The items presented were excellently rendered and thoroughly enjoyed by the large and appreciative audience. The chair was ably filled by the Chief of Police, Mr. C. Anderson. Santa Claus appeared at the close of the programme and delighted the children by distributing to them liberal bags of candy and fruit. After this excitement was over, a ten cent tea was served in the basement of the hall, to which all did ample justice.

The following was the programme:— Opening song. Prayer—Mr. Carey, Winnipeg. Introduction of Chairman—Capt. Aldridge.

Chairman's Remarks—Chief Anderson.

Song by School.

Scripture Reading—"Prophecies of the Messiah's Coming"—Arthur Davison.

Presentation—Miss—Four girls, Miss Margaret Moseley taking the solo.

Recitation—Evelyn Moseley.

Dialogue by sixteen boys and girls.

Recitation—Rita Spelne.

Toasting—Horns—Six boys of the Primary Class.

# ROCK YEAST

ce-unt0 herself a third husband? The pain is too severe to get a surgeon to give you a byodermis graft. You are agreed with the preacher who said that it took him all his time to get a wife without a cancer. The old religion has all the very practical aspects on the physical life, especially the muscular system. The muscles of the blacksmith's arm are strongly developed; it does not follow that the exercise has caused them to be weak, or that a less used arm must atrophy. The trip hammer is not intended to be used by exercise. Why not use the muscles as the material of wood and iron? Not because they are of muscular structure, but because of the blacksmith's faith in his exercise, his arm becomes stronger." "I am not sure whether they are or not. I will have to ask that their muscles be as big as Jack Johnson's." It is really hard to be consistently serious in this matter, even when you realize that this is one of the most serious travesties of both religion and science in our day. The muscles of the blacksmith and the muscles of the athlete are carried off their feet to their future intense regret if they are not used to the point of exhaustion at the time and patience for the honest worker after truth, but when a man or woman becomes so exhausted that he or she can only read what headquarter

allow them to read, refuse to hear or to answer any question that they want to believe and entertain a false idea. I am sure that this difference between them and those that differ from them that Mrs. Eddy is speaking to them is about as useless as talking to a drunk man about prohibition. But, you say, surely this prophesies didn't have any bitterness to her soul against anybody. It is true that she says: "In Science (Christianity) animal magnetism is a force of negation." Yet she brought action in the courts against Daniel Spofford on the ground that he had exercised malicious animal magnetism against one of her students. Her fear of animal magnetism drove her from Boston to Boston and from Boston to New York. She wouldn't even mail her letters in Boston because she imagined so many people there were working

linear magnetism against her. This was the first time that she calls a pure negation. She says, "I am not Mrs. Edgewood," which is the best way to get the court to sit in judgment on animal magnetism without prejudicial mind. No wonder that the court dismissed her appeal with a shrug, because to have granted it would have been to return to the days of witchcraft.

About two-thirds of the last lecture were taken up with an attempt to prove that Christian Science is the application of philosophical principles to religion, going far beyond what is able to lead away from many of the absurdities of his predecessor. We have already seen some of the points of simi-

...by between Christian Science and  
ndu Pantheism, viz., God not a per-  
n but a principle and all reality;  
n a mere reflection of God and not  
parate existence, the denial of real-  
to the material world and the  
ulting elimination of any distinc-  
n between virtue and vice as the  
ical application of the theory. It  
true that philosophical idealism  
nds up the spiritual as the one ulti-  
ate reality; but philosophical ideal-

does not deny the reality of the material world as the medium through which the spiritual finds expression. It is the greatest strength of the immaterialism of the modern machines through which both Old and New Testaments, and is at the root of the new sacramental idea of life—a vision of the world as a sacrament. The course we are all idealists today since idealism as a philosophy of life is not dead and buried; but idealism is very different from the idealism of the nineteenth century. Mrs. Eddy and her traveling lecturers fail to make at least in the present generation. One of the fundamental failures of the whole system is its failure to distinguish between the theory of knowledge and the theory of knowledge or reality. Mrs. Eddy would have us believe, and the last lecturer would have us believe, that we are idealists because we do not know a thing properly, therefore we do not know it at all, and therefore it does not exist. It is the most complete failure to distinguish between all kinds of absurdities, even to making a hypodermic injection to re-

They complain that according to her own theory does not exist at all. It is infinitely pathetic to see the devotees of this cult toiling and sweating to perpetuate themselves of the unreality of these facts of life that daily experience compels them to recognize as real and excusing themselves for so doing on their lack of development in Science.

**UNABLE TO WALK  
FOR A YEAR**  
Paralysis Entirely Relieved  
by "Fruit-a-tives"  
The Wonderful Fruit Medicine

Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, *the nervousness makes itself known by hysteria, insomnia, constant headaches, or it may be so bad that one is partially or completely helpless in some part of the body, just as Mrs. Heacock was.*

SAUL STE MARIE, ONT.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, leaving me *weak and unable to walk for a year. Seeing your "Fruit-aides" advertised in the papers, I decided to try them. I continued to use them regularly, and today I am able to go about my home duties and care for my family."*

MRS. J.-W. HEACOCK.

Any form of Nervousness is often caused by, and is always aggravated by, Constipation, which poisons the blood, irritates the kidneys and inflames the nerves. "Fruit-a-tives" stimulates the action of liver and bowels, kidneys and skin—tones and sweetens the stomach—keeps the blood pure, and builds up the entire nervous system.

In a word, "Fruit-a-tives" has proved that it is the most scientific and effective remedy in the world for Nervousness or a disordered condition of the nervous system.

50c a box, 6 for \$2.50, trial size, 25c.

At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

raised for His power to overcome all natural abundances for His Glory. This is the one thing neglected to use the means that have been provided, and means God's blessing upon them, for we all isn't God the Great Physician in every case, and isn't the human physician insofar as his method is true, but a fellow labourer with God? He is, and His firmly established law is that without which the human is worthless. It is not to defend the abuses and impositions of some medical practitioners. When these means are not available, then we have all the authority of both religion and science to ask God to help us and to expect that He will. We have a certain right to use life, physical, mental and spiritual, and if we walk in Jesus' way, we shall find life unto our souls, for then we shall know the truth and the truth shall make us free.

**CONSERVATIVE PARTY  
NOT DEAD, DECLARES  
HON. ROBT. ROGERS**

—

Never Prouder of Its Great Tradition  
Than He Is at Present.

—

Toronto, Jan. 4th.—Hon. Robert Rogers arrived here yesterday after a

"Don't make any mistake about it! The Conservative party is not dead. I am free to admit that by all the laws of nature it should be dead. But you consider what it has come through. It has survived, and it has done so, not from without, but from within. It is easily believed that it had not the nine lives of a cat, and the constitution of a horse. I would this moment be as dead as I

**VERY MUCH ALIVE**

"But the fact is the Conservative Party is very much alive; it has a strong and growing following and has never had. Moreover, if it takes advantage of its opportunities, it will live far not far distant future have a number of adherents as it ever had.

"For my own part and setting aside the question of the government, in which the Conservative party will be in a state of suspended animation, I would be ever proud of the Conservative Party, its traditions and its aspirations today. I believe that upon the future of this country, and the only way, Canada will find no only the worst road to normalcy, but the only

...cils, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs, the passages of these Peps fumes get there directly and at once commence healing.

**FREE TRIAL** Cut out this coupon, write the name and address of the doctor, and mail it with the stamp to (pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, *nervousness makes itself felt by hysterical risings, dizziness, headache, etc.* It may be so bad that one is partially or completely helpless in some parts of the body, just as Mrs. Hancock was.

SAUL STE MARIE, ENT.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, leaving me weak and unable to walk for a year. Seeing your "Fruit-lites" advertised in the papers, I decided to try them. I obtained a box and used them and today I am able to go about my home duties and care for my family."

MRS. J. W. HANCOCK.

praised for His power to overcome all our sins by His precious blood. It doesn't justify our neglect to pray. It means that have been provided and to ask God's blessing upon them, for He never asks God the Great Physician to pray for us. He isn't the Great physician insofar as His method is true, but a fellow labourer with God through His divinely established law of prayer, which is the human physician's helplessness. This means that we must resist abuses and impositions of some medical practitioners. When these means are not available, then we have all the help we can get from the Lord. We ask God to help us and to expect Him to do so. Jesus Christ came to give us life, physical, mental and spiritual. He came to save our souls, but we shall find life upon our souls, for then we shall know the truth and the truth shall make us free.

stod will go into consultation with the eastern Conservatives regarding his proposal for the National Conservation live convention to be held at Ottawa. Seen by the Canadian Press on arrival in Vancouver, he made the following statement in part:

"Don't make any mistake about it. The conservative party is not dead. I am free to admit that by all the laws of nature it should be dead. When you consider what it has done for the world, the things it has been done to it, not from without, but from within, it is easily believed that if it had not the nine lives of a cat, and the constitution of a horse, it would this moment be as dead as I."

## SCHOOL BOARD

The Public School Board met in the Secretary's office on Monday at 5 p.m. All the members were present. The declarations of office of J. T. Berry, W. J. Broughton and W. J. Stephenson were duly filed. On motion of W. E. Payne, R. L. Gaetz was unanimously re-elected chairman of the Board for the ensuing year. The meeting adjourned until Monday evening next, when matters of policy and outlines of the work for the year will be discussed.

## CITY COUNCIL

Continued from First Page  
writers asking for a reduction in the rate of fire insurance on account of the efficiency of the city fire brigade. The amount of losses due to fire being so light. Carried.  
The Commissioner's report was adopted as amended.  
E. J. Gibson addressed the Council on behalf of the Library Board asking that the Council should make provision of assistance to the Library. In the past a grant of two or three hundred dollars had been made by the Council, and he suggested that, say one third of the assessment be devoted to this purpose. We have now a library worth about four thousand dollars; it can be understood that our library is becoming quite an asset to the city. We had a splendid librarian, who was so interested that he offered to go the work free. The Board would not accept that offer, but gave him a reduced salary of \$35 a month. Last year the Board collected about one hundred dollars in fees, which had paid for repairs to books, etc. Last year the Board purchased 800 books for \$200. Some of these books, of course, were secondhand. Some books had been out over one hundred years, but had cost the Library one dollar. He hoped the city could make them a grant this year equal to the previous year. There was one hundred dollars owing on last year's grant which the Library Board would like as soon as possible.  
It was decided to leave the grant to the Library Board. When the estimates will be brought down.

### ACCOUNTS

The following accounts were passed:  
Western General Electric Co., \$250.00; Alex. McEwan, \$24.00; Dep. Min. Mun. Affairs, \$135.12; Sec. Bros., \$3.75; Sec. Treas. Pub. School, \$204.07; Gaetz-Cornett, Co., \$8.00; Western General Electric Co., \$35.73; W. J. Botterill, \$53.25; West. Keith, Ltd., \$45.55; Wage Sheet, December, \$115.00; Broughton & Gaetz, \$7.10; Sec. Treas. Sep. School, \$197.20; Sec. Treas. Fire Brigade, \$192.50; Fred Land, \$3.20; Cranes, Ltd., \$13.05; J. Forrester, \$14.85.  
Ald. Broughton suggested men so far as possible, should be engaged on city work, who were resident ratepayers.

The Commissioner said this rule was followed as closely as possible. A by-law was read amending the license by-law for the licensing of coal and wood dealers.  
Ald. Smith said he wished it understood that the coal dealers were not opposed to farmers bringing in coal. They are not opposed to legitimate farmers bringing in coal at any time, but are opposed to people residing in Red Deer bringing in coal and yet not pay taxes or have a license.  
Ald. Gibson asked if the peddler's license by-law could not be used against these people.  
Not if they pay a business tax, the Commissioner answered.

Ald. Smith said the coal dealers did not wish to antagonize the farmer in any way, but they had to put a big amount of capital into their business, had to pay heavy taxes, had to keep a big stock of coal on hand for severe weather and it was, he claimed, a hardship because a great deal of coal was brought into the city, and the dealers felt it keenly.

Ald. Broughton said he understood we were trying to get after the men who were bringing in coal by the car load and selling it in the city, not the farmer.  
The Mayor said he was afraid there were busy bodies who desired to hamper the Council in their business. No mention was ever made against the farmer bringing in coal. He distinctly remembered Ald. Smith giving expression to this thought the first time he ever spoke to him on the question. He was very sorry this idea had got abroad, as he knew the coal dealers never objected to the farmers hauling in coal. This was also true regarding hauling in wood.

Ald. Smith said he did not care if farmers brought in wood enough to last for years. He would like to see the farmers bring in wood at any time, without any license. He felt farmers were hauling in coal because of dire necessity, and he would not for a moment stand in the way of such farmers.

The coal license by-law was finally read, and a license fee of \$50 will be charged for persons bringing in coal by rail.

Commissioner Stephenson explained the C.P.R. assessment was on the water tank and coal chute as well, which he had explained to the C.P.R. authorities.

Ald. Broughton asked how it was the city assessment and departmental annual reports had appeared in the press before being presented to the Council.

The Commissioner explained he had given the assessment out himself, and the reports should have been read at the last meeting, but were held over.

Ald. Broughton contended no document should be published until it had appeared before the Council, as it placed the members of the Council in a poor light.

Mr. Galbraith by courtesy of the Mayor, explained the assessment had always been handed out as soon as ready to the press. As for the annual reports, he said he had copied them as they soon became stale news. He had not intended any discourtesy to the Council.

Ald. Smith explained the publishing of the reports placed the Council in a poor light, as the ratepayers saw them before the Council did, and he felt, with Alderman Broughton, the Council should deal with them first.

Mr. Galbraith said the point was well taken, and admitted the contention of the members of the Council.  
The Hospital Board report was presented to the Council, but as the new Board had not seen it except Ald. Best, it was referred to them for consideration and to report on at next meeting.

Ald. Gibson said he had interviewed the Minister of Education while in Edmonton on certain matters regarding school legislation and taxes, and hoped that some legislation which would help the present unworkable situation may be introduced at an early date.  
The questions asked by Ald. Best at the last meeting of the Council were answered by Commissioner Stephenson and each member of the Council given a typewritten copy. The answers will be found in another column.  
The Mayor speaking on the question of insurance, said we should get all our insurance policies on city property consolidated to a certain extent, and this question will come up at a future meeting.  
The Council adjourned at 12:15 a.m.

The Methodist Ladies Aid will hold their Easter bazaar on Saturday, April 8th.

All "Returned Men" are invited to the annual reunion in the Armouries, on Tuesday next, at 8 o'clock.

The regular monthly meeting of the I.O.B.F. will be held on Friday, Jan. 13th, in the Library, at 3 o'clock.

Alexandra Readers, paperettes, teddy bears, lead pencils, doll heads, hockey sticks and purses, at John McVicar's bookstore.
